Trade-marks Journal

Vol. 63 No. 3214

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

GOODS

Computer software and hardware allowing users to determine the physical location of goods, people, places, events and buildings; computer software and hardware providing public transports timetables and routes; computer software and hardware providing traffic information; computer software and hardware providing navigation information; computer software and hardware providing map information; computer software and hardware providing travel information, tourist information, entertainment information, shopping information, social and live events information, sporting events information, cultural events information, food and drink information; downloadable software in the nature of a mobile application for displaying and sharing a user's location and finding, locating, and interacting with other users; computer software for posting, uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing photography on mobile phones, smart phones and tablets; computer software for use with positioning systems and satellite systems for navigation, route trip planning, direction searching, electronic mapping, public transport information, location information, parking information, weather information, traffic information, determining the location of goods, objects, people, places, events, buildings and points of interest, display of location-based advertisements, displaying and sharing user location information on mobile phones, smart phones and tablets; computer software to be used for viewing, posting, uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing electronic maps on mobile phones, smart phones and tablets; computer software for digital diaries, online blogging, digital photo albums and social messaging to enable authoring, posting, uploading, downloading, transmitting, receiving, editing, playing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing electronic media and information over the internet and wireless communications networks for digital diaries, online blogs, digital photo albums and social messaging on mobile phones, smart phones, and tablets; computer software in the field of photography, global positioning systems, maps, public transport, traffic and travel, namely software for providing, updating, displaying and manipulating roadway, geographic, map, direction, travel, public transport and traffic data, for use on mobile phones, smart phones and tablets; computer software in the field of maps, namely software for creating, viewing, downloading and providing digital maps and digital map databases, for use on mobile phones, smart phones and tablets; computer software in the field of photography, global positioning systems and maps, namely software for the location and identification of shops, restaurants, people, places, buildings, events, objects, employment opportunities, shopping opportunities, best prices opportunities and points of interest based on visual recognition and geo-localisation, for use on mobile phones, smart phones and tablets; computer software in the field of global positioning systems and maps, namely maps-driven and location-based computer software and software applications, mapping computer software and software applications, computer software for location-based services, computer software for mapping services, for use on mobile phones, smart phones and tablets; computer software in the field of positioning systems and maps, namely computer software and software applications enabling its user to obtain location-based information, for use on mobile phones, smart phones and tablets; computer software in the field of photography, global positioning systems and maps, namely computer software and software applications for use with location-aware and context aware mobile devices, for use with location-aware and context aware wearable devices, for operating global positioning system (GPS) receivers, global positioning system (GPS) transmitters and for operating navigational instruments, namely, compasses; computer software in the field of maps, namely software-development software to create and use digital maps, map databases and map-based software applications for mobile phones, smart phones and tablets; computer software in the field of maps, namely computer software in the form of application program interfaces (APIs) to create and use digital maps, map databases and map-based software applications for mobile phones, smart phones and tablets; computer software in the field of photography for operating and interacting with optical and motion sensors and sensors for measuring speed, light, weight, rotation, pressure, humidity, height, incline, distance, time, sound, temperature, density, and resistance for use with mobile phones, smart phones and tablets; computer software in the field of global positioning systems and maps, namely software for operating and interacting with location, motion, positioning and distance measuring sensors and sensors for measuring speed, light, weight, rotation, pressure, humidity, height, incline, distance, time, sound, temperature, density, movements, physiological and biometric parameters, and electrical activity for use with mobile phones, smart phones and tablets; computer software in the field of global positioning systems and maps, namely software for providing web-based access to location-based and map-based software applications, for mobile phones, smart phones and tablets; computer software in the field of photography, namely computer software and software applications for taking, touching up, organizing and sharing still and moving pictures for mobile phones, smart phones and tablets; computer software and software applications for operating, interacting with and sharing information on social networking websites; computer software and software applications enabling users to view electronic messages, to chat and to browse on the Internet; computer hardware related to photography, global positioning systems, maps, digital diaries, online blogging, digital photo albums and social messaging; vision recognition software, namely, software for obtaining an augmented reality view of buildings and places in a given area and for highlighting points of interest, objects, people, activities, events and traffic and public transport routes and timetables in a given area; geo-localisation software; faces recognition software; location recognition software; buildings recognition software; digital maps; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; telematics in-vehicle communication systems for providing wireless vehicle navigation and tracking; navigational instruments, namely global positioning system (GPS) receivers and transmitters, compasses; optical, weighing and measuring sensors; audio sensors; tactile sensors; location, positioning, motion and pressure sensors.

SERVICES

Location-based advertising for the benefit of third parties; advertising services for the benefit of third parties; on-line advertising for third parties on a computer network; compilation and systemization of financial information and data into computer databases, compilation and systemization of traffic information and data into computer databases, compilation and systemization of map information and data into computer databases; rental of advertising space; computerized on-line retail store services in the field of software applications for use on computers, mobile phones, smart phones, tablets, watches and other electronic devices; providing access to a collection of computer software by means of global computer information networks; providing access to a database of computer software; providing access to an online platform, namely a database containing a collection of computer software; providing access to an online platform, namely a database containing a collection of maps; mobile personal communications services; wireless digital messaging services; wireless telephone services; providing personal wireless communication services via wireless networks for use with mobile telephones, tablets, connected watches, connected glasses, wearable computers, smart wearable arm bands, smart wearable sweat bands, smart wearable wrist bands, smart wearable head bands, connected clothing, connected footwear, connected headgear, GPS sensors, health monitoring sensors, fitness activity monitoring sensors, cellular telephones, personal digital assistants and computers, these services not being cable and satellite television broadcasting services and not being transmission of movies and television series and programs via the Internet, mobile devices or similar technology; satellite transmission, wire transmission, wireless transmission and wan (wide area network) transmission of audio digital files, text digital files, image digital files, map digital files, personal timetable information and video digital files, of text messages, image messages, video messages and audio messages, these services not being cable and satellite television broadcasting services and not being transmission of movies and television series and programs via the Internet, mobile devices or similar technology; providing multiple user access to GPS navigation information; provision of information about public transportation, traffic and travel; tourist information services; services of geo-localisation, namely, providing downloadable applications for mobile phones, wearable computers, smart wearable arm bands, smart wearable sweat bands, smart wearable wrist bands, smart wearable head bands, connected clothing, connected footwear, connected headgear, smart phones, smart watches, personal digital assistants, computers and tablets for locating goods, buildings, and people; mapping services; directions and route guidance services; places search services, namely, locating the geographic position of a place via satellite imagery and global positioning systems; physical storage of electronically-stored data or documents; design and development of computer hardware and software; computer programming; providing on-line [non-downloadable] software for displaying and sharing a user's location and finding, locating, and interacting with other users; providing tourism, map-related and location-based information from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information networks; conversion of data or documents from physical to electronic media; data conversion of computer programs and data [not physical conversion]; map creation services; hosting computer sites [web sites].

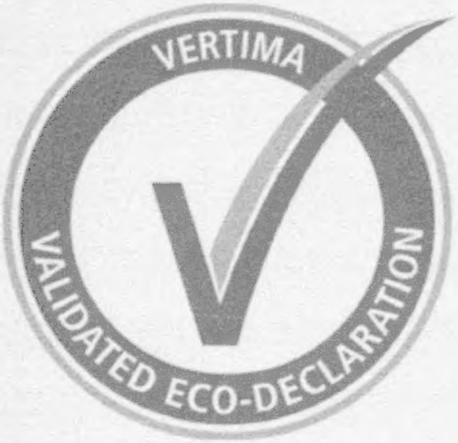
CERTIFICATION MARK



Index Headings
V VERTIMA VALIDATED ECO-DECLARATION

Image Description (Vienna)
- Check signs
- One line or one band
- Thick lines, bands
- Oblique lines or bands
- Circles
- More than two circles or ellipses, inside one another, spirals
- Circles or ellipses containing inscriptions arranged in circular or elliptical form
- Circles or ellipses with dark surfaces or parts of surfaces
- Green

Certification Mark Text

Validated Eco-Declaration is an accreditation granted by an independent third party in order to ensure the stringency of environmental claims by manufacturers, distributors, suppliers of products, systems, raw materials, and building materials. This accreditation is obtained after the applicant has completed several required steps (non-exhaustive description) : 1. Visit and audit of the business (manufacturing plant, distribution centre, supplier, administrative department, etc.); 2. Internal visual audit and gathering of documentation associated with the manufacturing, processes, and environmental practices of the business; 3. Gathering of data specific to the assembly of each product analyzed (the name of each component, their mass ratio in comparison to the completely assembled product and the supply sources (names of suppliers, distributors, etc.) for all components and subcomponents; 4. Traceability and collection of data for all components and subcomponents in the final manufacture of the products or systems submitted for analysis, by all suppliers, distributors, or other stakeholders who are part of the procurement chain; 5. Analysis and interpretation of the evidence and data provided; 6. Validation and accreditation by a third party that goes beyond self-declaration; 7. Annual updating of claim validation to maintain the stringency of the Validated Eco-Declaration accreditation. The description of the analysis protocol of VALIDATED ECO-DECLARATION is more exhaustive and comprises details that may vary. A detailed document is available on demand and includes all accreditation steps.

Colour Claim

Colour is claimed as a feature of the trademark. PANTONE* 363 C = dark green (large circle inside the logo and the large check mark). PANTONE* 376 C = light green (small circle that goes around the logo and the small detail on the check mark). * PANTONE is a registered trademark.

SERVICES

Independent third-party services for auditing, documenting, interpreting, and validating environmental claims, according to international environmental standards, made by manufacturers, distributors, suppliers of products, systems, raw materials, and building materials.

NORVEGIA VODKA

Image Description (Vienna)
- Bottles or flasks in circular or elliptical horizontal cross section
- Labels, collarettes (bottle-neck labels) -- Note: Not including tie-on labels (20.5.15).
- Labels in the form of bands or rings
- One line or one band
- Horizontal lines or bands
- Shields containing representations of geometrical figures or solids, lines, bands or partitions
- Curved lines or bands (except a 26.11.13)
- Measures -- Note: Not including time-measuring instruments, classified in 17.1, or balances and weights, classified in 17.3.
- Compasses, mariners' compasses -- Note: Not including compass cards (1.1.17).
- White, grey, silver
- Blue
- Red, pink, orange

Trademark Description

The mark consists of one two-dimensional horizontal label as applied to the three-dimensional object. The horizontal label is blue and contains the word NORVEGIA and VODKA in white. On the top portion of the horizontal label, there is a horizontal silver stripe design with a thin blue horizontal line near the bottom of the silver stripe. The label also contains a shield design outlined in blue with a silver background. The top horizontal band in the shield is blue and the bottom triangle shape is red. The three-dimensional object shown in dotted outline in the drawing does not form part of the trademark only with respect to the label. The trademark consists of the color silver, and the semi-nautical design applied in a particular position or positions on the three-dimensional object shown in dotted outline in the attached drawing, namely, on the top and neck portion of the bottle and on the front of the bottle neck respectively.

Colour Claim

Colour is claimed as a feature of the trade-mark. Colour is claimed as a feature of the mark only with respect of the label. The colors blue, white, red and silver are claimed as a feature of the trademark insofar as they appear on the two-dimensional label.

Foreign Character Translation

The translation provided by the applicant of the foreign word(s) NORVEGIA is NORWAY.

KINMIYA KIN MIYA

Image Description (Vienna)
- Groups of flowers of different kinds, bunches, sheaves or baskets of flowers, flower beds, scattered flowers
- More than four leaves, scattered leaves, bunches of leaves -- Note: Not including surfaces or backgrounds covered with a repeated figurative element composed of leaves (25.7.25).
- Ornamental bands and borders (except 25.1.9)
- Two polygons, one inside the other (except 26.5.10 and 26.5.11)
- Polygons containing other inscriptions
- Ellipses
- One circle or ellipse
- Ellipses containing one or more circles or polygons (except 26.1.10 and 26.1.11)
- Circles or ellipses containing representations of animals, parts of animals' bodies or plants
- Circles or ellipses containing inscriptions arranged in some other form
- Rectangles
- Other irregular parallelograms, trapezia and quadrilaterals, quadrilaterals containing one or more rounded corners
- One quadrilateral
- Inscriptions in Chinese or Japanese characters
- Blue
- Yellow, gold
- White, grey, silver
- Green
- Red, pink, orange

Colour Claim

Colour is claimed as a feature of the trade-mark. The mark consists of the dark blue Japanese characters which transliterate to 'KINMIYA' above a gold and white hexagon containing a Japanese character in gold which transliterates to MIYA superimposed on green leaves with gold veins and two red and white flowers, all on a white oval background with gold scallop edges, all on a light blue rectangular background with a gold border, containing 'KINMIYA' in stylized dark blue print at the lower left and multiple stylized red, white and gold flower designs, gold flower designs and designs of parts of green leaves with gold veins.

Foreign Character Translation

The applicant submits that the Japanese characters appearing in the trade-mark at the top of the oval transliterate to KINMIYA. The KIN portion means 'golden' and the MIYA portion means 'shrine'. KINMIYA has no meaning in English or French. The Japanese character appearing in the trade-mark in the hexagon transliterates to MIYA, which means 'shrine'.

Meifu Shinkage Ryu Saskatchewan

Foreign Character Translation

The translation provided by the applicant of the words Meifu Shinkage Ryu is a Japanese martial art. - MEI means Clear. It is also used for Smart, wise and knowledgeable person. - FU is an Organization in which these people gather. -SHIN means True. - KAGE means Shadow - RYU means A stream or flow. Many Japanese martial schools have at the end of the name of the character which wish to pass the art from a master to students and create the endless flow of water , which originates in the mountains, flows through the plains and flows into the Sea. Students of Meifu Shinkage Ryu should understand that everything in this world has two sides. Student needs to gain wisdom, to be able to distinguish between truth and its shadow (Shinkage) plus colleagues to help him in school Meifu Shinkage Ryu. Name of the school Meifu Shinkage Ryu is the message of its founder Someya Sensei.

Disclaimer

The right to the exclusive use of the word SASKATCHEWAN is disclaimed apart from the trade-mark.
